

## **COSMY THE BOT**

100 | 150 | 200 | 250

*Light, Fast & Intelligent*

All new lineup of robotic pool cleaners that takes pool cleaning to an entirely new level by cleaning every surface of your pool.

**COSMY THE BOT**  
100 | 150 | 200 | 250

## Lightweight

The Cosmy series of robotic cleaners are the lightest robotic cleaners on the market. Weighing in under 13 pounds makes this cleaner easy to lift in and out of the water. The rapid drain system sheds water quickly to eliminate extra weight when removing the cleaner from the pool.

## Tangle-Free Cord

All Cosmy robotic cleaners utilize software to eliminate tangles from occurring to ensure complete coverage for the optimal clean.

## Easy Access Top Filtration

Cosmy's easy-access filter is designed on the top of the unit, making it extremely easy to access and clean. The 100 and the 150 have a single mesh filter while the 200 and 250 have a dual-mesh filter.

## Best-In-Class Warranty

Cosmy comes with a full bumper-to-bumper warranty. The Cosmy 200 has a 3 year warranty (two full years plus one year limited). The Cosmy 250 has a 4 year warranty (two full years plus two years limited).

## Bluetooth Connected

The Cosmy 200 and 250 contain a bluetooth module to talk to our proprietary BWT Best Water Home App. You can control your Cosmy robotic cleaner from your smartphone with a swipe of your finger. You can easily direct the cleaner to pick up a specific piece of debris that may have been blown into the pool by the wind. Download our FREE app from the Apple Store or Google Play Store.
